LANGUAGES

- English (C2 - Advanced)

EF SET Certificate

- Spanish (Native)

EDUCATION

Bachelor of Science in Computer Science and Engineering (5 year program)

National University of Tucuman (UNT)

Faculty of exact sciences and technology

2023 - Today

Postgraduate Certificate in High performance Data Engineering

National University of Tucuman (UNT)

Faculty of exact sciences and technology

2024

Associate in Computer Programming

National University of Tucuman (UNT)

Faculty of exact sciences and technology

2021 - 2024

PROFILE

B.S. in Computer Science and Engineering and Associate in Computer Programming, with expertise in full-stack applications using frameworks as .NET, Laravel, FastAPI, Vanilla PHP, along with MySQL, SQLite, Oracle and PostgreSQL as Databases, and technologies as ReactJS, JS Vanilla, HTML, CSS and Bootstrap. Alongside Automation using Python scripts, GitHUb Actions, Docker, and Infrastructure as code. My profile is currently focused on fullstack web development, application configuration and deployment, and AI coding utilities. Driven by a passion for continuous learning and innovation, I implement cutting-edge technologies to ensure efficiency, excellence and traceability in every project.

COMPETENCIES AND TECHNICAL SKILLS

- Laravel and Php | .NET and C#
- MySQL | PostgreSQL | Oracle | SQLite
- ReactJS| HTML | CSS | JavaScript | JQuery | Bootstrap
- Advanced PL/SQL | Triggers | Stored Procedures
- Advanced SQL optimization techniques | Debugging and profiling
- Git | GitHub | Bitbucket
- Unit Testing | Integration Testing | Playwright | PHPUnit
- Docker | Terraform | Ansible | GitHub Actions
- SCRUM | KanBan | Agile | T-D-D | TRELLO | ClickUp
- C | C++ | Python
- Pandas | Numpy | Seaborn | MatplotLib
- Design Patterns and Architecture principles

CERTIFICATES

Postgraduate Certificate in High performance Data Engineering using CASE tools - Universidad Nacional de Tucumán - 2024

Learned how to design high-performance databases with high concurrency, using CASE tools and best practices, including execution plan analysis in MySQL and Percona.

Cisco Academy: IA Fundamentals with IBM Watson Studio - 2025

This certification demonstrates knowledge of AI concepts such as natural language processing, computer vision, machine learning, deep learning, chatbots, GANs and neural networks, AI ethics, and how to run an AI model using IBM Watson Studio.

Desafío LATAM Academy: Introduction to Data analysis with Python - 2025

Data analysis certification from Desafío LATAM, focusing on Pandas and Numpy for data manipulation and Seaborn for visualization and charts plot.

Introduction to Cybersecurity - 2024

Cybersecurity certification from Cisco, focusing on cybersecurity esentials and common atack vectors, data protection, organizational security, social engineering strategies, ethics of hacking.

Argentina Programa: Data analysis with Python - 2022

Data analysis certification from Argentina Programa, focusing on Pandas for data manipulation.

Argentina Programa: First Steps in Front-End - 2022

Web development certification from Argentina Programa, focusing on HTML, CSS, and JavaScript practices.

EXPERIENCE

Full-Stack Web Developer (Laravel, PHP, JS)- Automation and DevOps

2025 | Present | Dirección General de Catastro | San Miguel de Tucumán

SysAdmin & Developer at DGC bridging operations and code. I ensure system stability by managing CI/CD pipelines, server diagnostics, and optimizing legacy backend and database performance.

Dynamic Survey Creation Site on Laravel and React

October 2024 | Graduation project for University Programmer Grade

Link to GitHub Repo

Led the Front-End development for a dynamic survey creation website using React, Material UI, and Laravel. Led the Managment of sprints in ClickUp and organized team meetings. Documented the logical design of the DB, UML diagrams, UI design with Figma, and extensive use cases. Maintained version control by managing different branches and repositories. Gained substantial knowledge in virtualization using Docker. Utilized PostgreSQL as the database management system.

IT Support Intern

July 2023 – January 2024 | Dirección General de Catastro | San Miguel de Tucumán

Software and hardware technical support, configuring and installing Windows systems. Performed hardware repairs on PCs, switches, power supplies, and printers. Installed network devices including switches, cameras, and Access Points. Provided comprehensive IT support and maintenance services.

Consumer Electronics and Microelectronics Technician

2023 - Present | FreeLance | Alderetes

I own an electronics workshop where I repair electronic devices, using SMD and THT soldering techniques. Focused on process improvements for efficiency. I maintain direct contact with clients and suppliers, honing my soft skills daily. Utilizing a ticket system to organize repairs, manage clients, deliveries, and stock, and automatically calculate repair costs. I am skilled in using equipment like microscopes, oscilloscopes, and multimeters.
